### Introduction to Radiological/Nuclear WMD Operations Train-the-Trainer Course

This course prepares trainers to deliver the AWR-140 Introduction to Radiological/Nuclear WMD Operations course. It focuses on the delivery of the AWR-140 course, including class preparation, instructional techniques, completion of course paperwork, notes and delivery tips, slide groupings, key points, and information to aid instruction.

#### Course Objective

Prepare remote instructors to present the AWR-140 Introduction to Radiological/Nuclear WMD Operations

#### Target Audience/Discipline

Fire Service, Law Enforcement, Emergency Management Agency, Emergency Medical Services, Governmental Administrative, Hazardous Materials Personnel, Healthcare, Public Health, Public Safety Communications, Public Works and private sector and general public members approved by the National Training and Education Division (NTED). This includes persons from non-governmental organizations such as Red Cross or Community Emergency Response Teams (CERTs) and businesses, industries, and services who may have a role in the response may also take the training to improve their capabilities under the whole community concept.

#### Eligibility

It is the responsibility of the jurisdiction to select course participants.

#### Cost

All training and course materials are provided at no cost to eligible participants.

#### Compliance

This course enhances the competencies defined in National Fire Protection Association NFPA 472, "Standard for Competence of Responders to Hazardous Materials/WMD Incidents," for responding to specific radiological/nuclear WMD incidents, and augments the responder's knowledge and skills to perform those duties and functions.
